

ORDINANCE NO. IV-3

ORDINANCE
TO ESTABLISH
RURAL ROAD
STREET AND AVENUE DESIGNATIONS

The purpose of this ordinance is to establish, within Jasper County, a street and avenue identification system to enable the assignment of rural residence and business addresses, in order to better enable location of said residences and businesses by emergency vehicles, delivery services, and the general citizenry of Jasper County and the State of Iowa.

SECTION NO. 1: GENERAL DESIGNATION LAYOUT

In general, secondary roads running in an east-west direction will be designated as AVENUES, while those running in a north-south direction will be classed as STREETS. Avenues and streets running in a true east-west or north-south direction will be designated by numbers, while those following diagonal, meandering, or irregular routes will be named. The beginning base reference point for all numbered streets and avenues will be the southeast corner of the Jasper County Courthouse Square in Newton, Iowa. All named streets and avenues within any given congressional township shall begin with the same letter of the alphabet, as a further aid to location. Streets and avenues within unincorporated communities shall use, insofar as possible, those names and/or numbers shown on the original plats of those communities. This rural street and avenue designation ordinance does not apply within the corporate boundary of any incorporated community within Jasper County, where their identification system shall take preference.
