BRINGING COMMUNICATIONS FULL CIRCLE

November 24, 2020

Attn: Ryan

RE: OnSSI upgrade

SCI, Inc. is pleased submit the following proposal Jasper County located in Newton, Iowa. At SCI customer service is the lifeline of our organization. Our Customer satisfaction is the most important building block to all members of our company. We provide and stand behind our outstanding quality and professional installations. SCI is a **CommScope Uniprise Certified Installer**, and SCI is **BICSI certified and has a RCDD on staff**.

Execution for project listed below

- SCI will provide 1 instance of OnSSI Ocularis Professional Base GetCurrent license
- SCI will provide 99 instances of OnSSI Ocularis Professional Camera GetCurrent licenses
- SCI will rebuild the configuration and upgrade all adjuncts of the current Video Management System
- SCI will load new client software to machines that currently have client software on them including Smart phones and Tablets
- SCI will train staff on the use of new software.

Horizontal Cross Connect Installation

N/A

Firestop System / Bonding and Grounding / Support systems

N/A

Identification and Labeling

SCI will adhere to the labeling scheme provided by the customer. This labeling scheme will include all cables, data racks, patch panels and outlets. Once the labeling scheme is approved SCI will incorporate this scheme into each test result and the as-built drawings.

BRINGING COMMUNICATIONS FULL CIRCLE

Testing and Acceptance

SCI will ensure that all testing of the cables installed will be done with a high-end tester to ensure that all cable is tested correctly to meet or exceed industry specifications. All voice cabling will be wire mapped and will shoot the distance and recorded to the labeling scheme.

Warranty

GetCurrent will be a 1 year all-inclusive software contract for any training, questions, and software needs. To continue the contract per year would be a cost of \$960.00

Project Price: \$ 9,095.19

BRINGING COMMUNICATIONS FULL CIRCLE

Additional comments: Bid is valid for 45 day / No sales tax included

Again, SCI is pleased to present you with this proposal. At SCI customer service is the lifeline of our organization. Our customer satisfaction is the most important building block to all members of the organization.

If there are any questions please feel free to contact me at the numbers listed below.

SCI Communications, Inc. looks forward to building a lasting business relationship with your Organization.

Sincerely,

Jerry Brown, RCDD
Sales Director

LEVEL "C" ROADWAY DESIGNATION RESOLUTION

Number _____

WHEREAS, Jasper County desires to classify a certain stretch of roadway on the area service system to provide for a minimal level of maintenance and access by means of a gate or barrier; and

WHEREAS, the County, after consultation with the County Engineer, has the authority to specify certain roads within the County as Area Service "C" roads pursuant to Iowa Code Section 309.57 (2020-) see attached reference Document 1 of 1; and

WHEREAS, Jasper County has received a request from the land owners, requesting that a portion of South 44th Avenue East located in Sections 9 and 16, Township 79 North, Range 18 West of the Fifth P.M., Jasper County, Iowa, described as follows:

Beginning at the east right-of-way line of East 76th Street South; thence east one-half mile to the end of South 44th Avenue East.

become designated as Level "C" with gates installed.

1. **Blading.** Blading or dragging will not be performed on a regular basis.
2. **Snow and Ice Removal.** Snow and Ice removal will not be performed on a regular basis. Sanding and salting will not be performed on a regular basis.
3. **Bridges.** Bridges on Area Service "C" Roads may not be maintained to carry legal loads but will be posted as appropriate to advise of any load limitations.
4. **Weed, Brush, and Trees.** Mowing or spraying weeds, cutting brush and tree removal will not be performed on a regular basis. Adequate sight distances will not be maintained as on a regular road.
5. **Structures** Bridges and Culverts may not be maintained on a regular basis to carry legal loads. Upon failure or loss, the replacement structures will be for traffic thereon.
6. **Road Surfacing.** There will be no surfacing materials applied to Area "C" Service roads.
7. **Shoulders.** Shoulders will not be maintained.
8. **Crown.** A crown will not be maintained.
9. **Repairs.** There will be no repairs on a regular basis.
10. **Uniform Width.** Uniform width for the traveled portion of the road will not be maintained.
11. **Inspections.** Regular inspections will not be conducted.
12. **Gate.** The gate shall be purchased and installed by the County, and maintained by the County.

WHEREAS, the only persons who will have access rights to the road shall be:

- (1) The owner, lessee, or person in lawful possession of any adjoining land.
- (2) The agent or employee of the owner, lessee or person in lawful possession of any adjoining land.
- (3) Any peace officers.
- (4) Any magistrate.
- (5) Any public employee whose duty it is to supervise the use or perform maintenance of the road.
- (6) Any agent or employee of any utility located upon the road.

THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF JASPER COUNTY that this County does hereby establish the road described as an Area Service "C" road, with restricted access and a minimal level of maintenance.

309.57 Area service classification.

1. The county board of supervisors, after consultation with the county engineer, and for purposes of specifying levels of maintenance effort and access, may classify the area service system into three classifications termed area service "A", area service "B", and area service "C". The area service "A" classification shall be maintained in conformance with applicable statutes. Area service "B" classification roads may have a lesser level of maintenance as specified by the county board of supervisors, after consultation with the county engineer. Area service "C" classification roads may have restricted access and a minimal level of maintenance as specified by the county board of supervisors after consultation with the county engineer.
2. Roads within area service "B" and "C" classifications shall have appropriate signs, conforming to the Iowa state sign manual, installed and maintained by the county at all access points to roads on this system from other public roads, to adequately warn the public they are entering a section of road which has a lesser level of maintenance effort than other public roads. In addition, area service "C" classification roads shall adequately warn the public that access is limited.
3. Roads may only be classified as area service "C" by ordinance or resolution. The ordinance or resolution shall specify the level of maintenance effort and the persons who will have access rights to the road. The county shall only allow access to the road to the owner, lessee, or person in lawful possession of any adjoining land, or the agent or employee of the owner, lessee, or person in lawful possession, or to any peace officer, magistrate, or public employee whose duty it is to supervise the use or perform maintenance of the road. Access to the road shall be restricted by means of a gate or other barrier.
4. Notwithstanding section 716.7, subsection 2, paragraph "b", subparagraph (2), entering or remaining upon an area service "C" classification road without justification after being notified or requested to abstain from entering or to remove or vacate the road by any person lawfully allowed access shall be a trespass as defined in section 716.7.
5. A road with an area service "C" classification shall retain the classification until such time as a petition for reclassification is submitted to the board of supervisors. The petition shall be signed by one or more adjoining landowners. The board of supervisors shall approve or deny the request for reclassification within sixty days of receipt of the petition.
6. The county and officers, agents, and employees of the county are not liable for injury to any person or for damage to any vehicle or equipment, or contents of any vehicle or equipment, which occurs proximately as a result of the maintenance of a road which is classified as area service "B" or "C" if the road has been maintained to the level required for roads classified as area service "B" or "C".

THE POLICY AND LEVEL OF SERVICE IN RESPECT TO CLEARANCE OF SNOW OR ICE AND THE MAINTENANCE OF JASPER COUNTY'S SECONDARY ROADS DURING THE WINTER MONTHS.

BY THE BOARD OF SUPERVISORS OF JASPER COUNTY, IOWA:

SECTION 1—PURPOSE

The purpose of this ordinance is to establish Jasper County's policy and level of service in respect to clearance of snow or ice and the maintenance of its secondary road system during the winter months, pursuant to the provisions of Section 668.10 and 309.67, Code of Iowa. This policy and level of service are to be implemented within the amount of money budgeted for this service, and as contained in Jasper County's secondary road budget, as adopted by the Jasper County Board of Supervisors and as submitted to and approved by the Iowa Department of Transportation.

SECTION 2—LEVEL OF SERVICE

Clearance of snow or ice and the maintenance of the secondary road system during the winter months is primarily for the benefit of the local residents of Jasper County. Each storm has individual characteristics and must be dealt with accordingly. The portion of the road surface improved for travel may have upon it snow or ice in a compacted condition. These conditions may be continuous, or they may be more concentrated on hills or curves, in valleys, and/or at intersections. Jasper County's existing snow removal equipment will be utilized for the correction of these problems. All clearance of snow or ice, sanding, salting, and other maintenance, in respect to winter conditions, shall be accomplished within the amount of money budgeted for this service. The entire surfaced width of that portion of road improved for travel may not be cleared of snow, ice, compacted snow and ice, or frost. Snow cleared from that part of the roadway surface improved for travel shall be placed on the adjacent shoulders, or in the adjacent ditches or right of way. Snow can be expected to accumulate adjacent to this travelled portion to the extent that a motorist's sight distance to both the left and right may be greatly reduced or impaired. The snow removed from intersections will be piled in the intersection corners in piles of unequal heights. The line of sight, sight distance, or visibility of motorists approaching these intersections may be greatly reduced or impaired. Jasper County shall not be responsible for snow pushed or otherwise placed on the roadway or shoulders by others. Motorists shall drive their vehicles, during these conditions, with additional caution and watchfulness, especially in respect to the surface of the roadway, and the reduced or impaired visibility, and are advised to reduce their speed at least 25 miles per hour below that legally permitted or advised under normal conditions. In respect to roadways that have only one lane open, further extreme watchfulness and caution must be exercised by the motorists and their speed should not exceed 10 miles per hour. During these conditions, no additional warning or regulatory signs will be placed to warn of impaired sight distances, reduced visibility at intersections, road blockages, one lane conditions, or that the road surface is slick or slippery, or what the advised speed should be.

SECTION 3—SEQUENCE OF SERVICE

In the implantation of snow and ice removal and other maintenance of Jasper County's secondary road system during the winter months, the County Engineer shall select the actual sequence of roads to be cleared, as provided for in this Section of this Policy, and shall determine when drifting snow, wind velocity, and additional snow or snowstorms require that the snow removal equipment be removed from the roadway, or that additional clearance of paved routes be accomplished prior to the clearance of granular surfaced roads. The County Engineer's or his/her designee's professional judgment shall prevail unless it is clearly erroneous.

PAVED ROUTES:

1. The initial effort will be to get all routes open to one lane traffic, as soon as possible following the storm, but in accord with the following Item No. 3.
2. After one lane travel is possible, subsequent snow removal will be carried on during normal working hours.
3. The truck-mounted snowplows and spreaders will not normally be in operation between the hours of 5:30 P.M. and 4:30 A.M. The trucks may be called off the road if snow and blowing reduces visibility to hazardous working conditions, in the professional judgment of the County Engineer or his delegated representative.
4. When required, due to drifting snow, more graders may be used to open, or keep open, the paved roads and the opening of granular surfaced roads may be delayed.
5. The County may place salt, sand, or other abrasives on intersections, hills, and curves after roads have been plowed as provided in this section. These intersections, hills, and curves may not be re-sanded, re-salted, or have other abrasives replaced on them between snowstorms. This sequence of service shall not normally be performed between the hours of 5:30 P.M. and 4:30 A.M. of any day.
6. It is not the policy of Jasper County to provide a "dry" pavement condition.

UNPAVED ROADS:

1. The initial effort will be to open to one lane traffic at least one direction of ingress and egress for each inhabited residence of Jasper County's granular surfaced roads. The roads or portions or roads involved may vary from storm to storm, due to differing characteristics of different storms.
2. After providing all inhabited residences with at least one ingress and egress, these same routes will be widened to two lane travel in preparation for the next snowstorm.
3. Following the opening and widening efforts stipulated above, the remaining unopened granular surfaced roads will be opened to one lane travel.
4. The final step in the sequence of service for unpaved roads will be to widen, to two lane travel, all granular surfaced roads not previously widened.
5. Snow will not be removed from roads designated as Level "B" roads.
6. The motor graders may be called off the road if snow and blowing reduces visibility to hazardous working conditions, in the professional judgment of the County Engineer or his delegated representative.
7. No motor grader snow removal operations will be undertaken on holidays, Saturdays, or Sundays, when the snowfall totals 3 inches, or less, unless drifting snow and blockages of the roads occurs.

PRIVATE DRIVES:

Jasper County will not clear snow from private drives, except for emergencies as defined in Section 5. Normal snow removal operations will result in snow being deposited in private driveways. This deposited snow shall be the responsibility of the resident to remove from the driveway. Snow from private drives shall not be placed on the roadway or shoulders. The resident shall be responsible for the removal of any snow left on the roadway surface or road shoulders due to the clearing of his driveway.

MAILBOXES AND MAILBOX PULLOUTS:

The County shall not replace, or repair mailboxes destroyed or damaged during snow removal operations unless the plow blade actually struck the mailbox. The County will not replace mailboxes damaged or knocked down the force of snow thrown from the plow.

TIME LIMIT:

There is no time limit after a snowstorm in which any of the above sequence of clearance, on paved or unpaved roads, shall take place.

SECTION 4—LIMITATION OF SERVICE

The policy and level of service provided for in this policy shall not include, and the following services shall not be performed:

1. Sanding, salting, or placing of other abrasives upon the roadways or bridges that are slick, slippery, and dangerous due to the formation of frost.
2. Sanding, salting, or placing other abrasives upon paved roadways due to freezing rain that occurs between 5:30 P.M. and 4:30 A.M.
3. Placing of additional warning or regulatory signs warning of impaired sight distances, visibility at intersections, road blockages, one lane conditions, or that the road surface is slick or slippery, or what the advised speed should be.

SECTION 5—EMERGENCY

This sequence of service may be suspended during “Emergency” conditions. An “Emergency” condition shall be considered as one where a loss of life is probable, where a serious injury has occurred, or where extensive loss of property is imminent. These conditions should be verified through a physician’s or sheriff’s office. Jasper County will respond to all “Emergency” conditions, either during or after a snowstorm.

The provisions of this policy shall be further suspended in the event the Governor, by proclamation, implements the State disaster plan, or the Chairman of the Jasper County Board of Supervisors, by proclamation, implements the Jasper County disaster plan. If such occurs, Jasper County personnel and equipment shall be immediately subject to the direction of the Governor or the Chairman of the Jasper County Board of Supervisors.

SECTION 6—SEVERABILITY CLAUSE

Should any section, clause, sentence or provision of this policy be declared, by the courts, invalid for any reason, such declaration shall not affect the validity of this policy as a whole or any part thereof, other than the section, clause, sentence, or provision so declared to be invalid.

December 1, 2020

Tuesday, December 1, 2020 the Jasper County Board of Supervisors met in regular session at 9:30 a.m. Supervisors Talsma, Cupples and Carpenter present and accounted for; Chairman Talsma presiding.

Motion by Carpenter and seconded by Cupples to open a public hearing to change the said property: Parcel G of Parcel B East 1/2 NW 1/4 Except Parcel H Section 22, Township 81, Range 21, approximately 2.70 acres Jasper County, Iowa owned by Joseph Paul, from RR to A.

YEA: CUPPLES, CARPENTER, TALSMA

Adjacent landowner, Larry Ladd and his attorney Jim Nervig spoke in opposition to the re-zoning request. Ladd stated in his opposition that the current landowner has allowed the property to become a nuisance and he broke zoning laws because he has livestock on his property which is zoned for residential. Ladd stated that 20 years ago it was zoned as residential and now has seven homes out there. Nervig stated that the County Attorney should be consulted before the Board makes their final decision because the Iowa Supreme Court has ruled that zoning must follow the County's Comprehensive Plan. Nervig said that there is case law that states that the County cannot pick out one lone parcel to rezone as Agricultural in the midst of a lot of other parcels that are zoned as residential.

Motion by Cupples and seconded by Carpenter to close the public hearing.

YEA: CARPENTER, CUPPLES, TALSMA

The second public hearing on the issue will be held at the next meeting of the Board of Supervisors, December 8, 2020.

Motion by Carpenter and seconded by Cupples to approve an administrative agreement between Jasper County and Auxiant to handle 6 months of run-out for medical claims incurred prior to January 1, 2021.

YEA: CUPPLES, CARPENTER, TALSMA

Motion by Carpenter and seconded by Cupples to approve 2020 tax abatements for the following parcels:

0827452012	\$2265	0834230038	\$1338
0833203022	\$1736	0835102035	\$4081
0834201016	\$828	0835153002	\$1228
0834230002	\$800		

YEA: CUPPLES, CARPENTER, TALSMA

Motion by Carpenter and seconded by Cupples to approve 2020 suspension of taxes and special assessments on the following parcels:

1303202020	NEWTON	\$2042
