October is Breast Cancer Awareness Month, making it a good time to think about how substance use can affect one's risk of cancer.

Alcohol has been linked to cancers of the mouth, pharynx and larynx (throat and voice box), esophagus, liver, colon, rectum, and breast. Recent studies have shown that non-drinkers have a lower risk of breast cancer than women who drink just 1-2 alcoholic drinks per day. These are based on standard drink sizes: 12 oz of beer, 8 oz of malt liquor, 5 oz of wine, and 1.5 oz of distilled spirits.

The link between alcohol and breast cancer in women is related to estrogen levels in the body. Alcohol is known to increase estrogen in both men and women; this may be the reason that alcohol poses a greater risk of breast cancer in women. To reduce risk of breast cancer in women, the American Cancer Society recommends either abstaining from alcohol or having no more than one alcoholic drink per day.

See the image to the right for helpful information on how low-income patients in eligible Iowa counties can access breast cancer screenings.

October is also National Substance Use Prevention Month! Everyone is encouraged to share their prevention story. What is your experience with substance use prevention? How can we spread prevention awareness in our communities? These are great questions to consider this month.

And remember, reducing stigma is always a great practice when talking about substance use. October is a great time to remind our peers that people with addiction of any kind are still people; and they need help, not judgement. Your Life Iowa is a great resource that provides lowans with all kinds of resources related to substance use, problem gambling, and mental health.

To anyone that works in substance use prevention: thank you for your important, life-changing work!

INTRODUCTION

In accordance with the informal competition procedures provided for in 11 Iowa Administrative Code rule 118.9, the Department of Health and Human Services (the Agency), in collaboration with the Jasper/Poweshiek/Tama (JPT) Decategorization Board seeks a qualified entity to provide services to children and families who are involved, or at-risk of involvement, with the Department of Health and Human Services or Juvenile Court Services in Jasper, Poweshiek, and Tama counties.

The Agency anticipates the term of any resulting contract will be from December 2, 2024, to June 30, 2025. The resulting contract has the potential for one, one (1) year extension. The contract is limited to a maximum of \$25,000 for the initial contract period. The maximum value of the contract with all potential renewals is \$50,000. All contracts and renewals are subject to availability of funds.

The JPT Decategorization Board has discretion to fund services in each county separately or to fund a combined approach to serve families in multiple counties.

All information submitted by a Bidder may be treated as a public record by the Agency unless the Bidder properly requests that the information be treated as confidential information in accordance with the public records laws of the State of Iowa at the time its proposal is submitted.

The costs of preparation and delivery of the bid proposal are solely the responsibility of the Bidder.

By submitting a proposal, the Bidder agrees that the Agency may copy the proposal for purposes of facilitating the evaluation of the proposal or to respond to requests for public records and represents that such copying will not violate the rights of any third party.

By submitting a proposal, the Bidder agrees that it will not bring any claim or have any cause of action against the Agency based on any misunderstanding concerning the information provided herein or

The Agency will utilize an evaluation committee to evaluate and review proposals. The committee will consider all information provided in the proposal when making its recommendation and may consider relevant information from other sources. **The evaluation committee will award the contract to the responsible Bidder submitting the best proposal. 1. Cost.
2. Past performance of work that is identical or similar to the scope of services identified.

If the apparent successful bidder(s) fail to negotiate and execute a contract, in its sole discretion, the Agency may revoke the award and award the contract to the next highest ranked bidder or withdraw the Informal Bid Solicitation.

The written request may be emailed or delivered by postal service or other shipping service. Do not deliver any requests for reconsideration to the office in person. It is the Bidder's responsibility to ensure that the request for reconsideration is received prior to the deadline. Postmarking or submission to a shipping service by the due date shall not substitute for actual receipt of a request for reconsideration by the Agency.

The request for reconsideration shall clearly and fully identify all issues being contested by reference to the page and section number of the Agency's solicitation. If a Bidder submitted multiple Proposals and requests that the Agency reconsider a notice of disqualification or notice of intent to award decision for more than one Proposal, a separate written request shall be submitted for each. At the Agency's discretion, requests for reconsideration from the same Bidder may be reviewed separately or combined into one response. The Agency will expeditiously address the request for reconsideration and issue a decision. How are Kids Getting Fentanyl?

Drug dealers use social media apps for advertising and selling their products. Prospective buyers use the apps and can easily search for drugs using codewords, emojis, hashtags, and other means. Drug traffickers also advertise using posts and stories; as quickly as accounts are shut down, a new one takes its place.

The buyer will direct message or comment on the post using code words or emojis. Conversations will then move to encrypted messaging platforms like Signal, WhatsApp, or Telegram. Once the deal is made, payment is made through Venmo, Paypal, or cryptocurrency. The packages are then shipped via standard post.

This disturbing trend becomes even worse when you realize that the majority of the drug bought this way are usually tainted with fentanyl. Unsuspecting adolescents who think they are experimenting with a non-lethal drug are in grave danger.

Why Fentanyl is Hard to Avoid

While fentanyl is sold by itself, it is very rarely sought out by kids looking to experiment with drugs. Unfortunately, many individuals who aren't trying to use fentanyl end up in contact with it. This is because it is used as an additive to many illicit drugs. There have been traces of fentanyl found in heroin, cocaine, meth, and even marijuana. There are even fentanyl pills that are pressed to look like other legitimate prescription drugs. Adolescents who are experimenting with drugs are becoming more and more at risk.
