

## Resolution Setting Policy for Dust Control:

1. The application of dust control in Jasper County will only be performed by contractors who are pre approved by the Jasper County Highway Department.
2. Contractors shall only apply materials that meet or exceed applicable DNR and EPA regulations.
3. At no time is any other product allowed on Jasper County roads, all dust control applied outside of the companies stipulated by Jasper County will be bladed through at no cost to Jasper County and no reimbursement made to landowner.
4. Contractors shall notify Jasper County two weeks prior to their anticipated start date in order to allow the road crews adequate time to prepare road surface for dust control application.
5. Jasper County requires that the approved contractors compile a listing of applicants, township, section, road name, and length of suppressant to be applied and submit this information to the Jasper County Highway Department two weeks prior to anticipated start date.
6. All charges for dust control services will be processed by the approved contractor. Jasper County will not process applications or accept payment for dust control services.
7. No complaints regarding dust control or the dust control company will be taken by Jasper County; all complaints should be directed to the dust control company.
8. Jasper County does not require a permit fee but does require a preparation and administration fee in the amount of .167¢ per linear foot of applied product. This fee is collected by the approved contractor and forwarded to Jasper County.
9. Any discrepancy in length of application is between the contractor and the applicant.
10. Sign up deadlines will be set annually by the Jasper County Highway Department. Late applications will not be accepted.
11. All applicants are obligated to mark the limits of their own dust control area and maintain those markings for the duration of the dust control season.
12. Applicants are obligated to fill depressions in the treated area and maintain a smooth driving surface.
13. Jasper County reserves the right to blade through any area that is no longer marked or that has become rough or potholed in order to maintain the integrity of the road surface.
14. Jasper County is not obligated to provide re-application or any compensation for dust control areas that are scarified or bladed.
15. Jasper County reserves the right to blade through any dust control area prior to second treatment.
16. Jasper County will begin preparing all dust control areas for winter on or after October 1 of the current dust control year. This preparation may include scarifying, blading, placement of additional rock, and shaping.
